Ohio Nursing *Momentum* is the official journal of the Ohio Board of Nursing. Nursing *Momentum's* traditional journal & interactive digital companion serve over 280,000 nurses, administrators, faculty and students of every degree, 4 times a year all across Ohio. *Momentum* is a timely, widely read and respected voice in Ohio nursing regulation.

Bertha Lovelace,
RN, CRNA
Board President

We are extremely proud

that the Board was nationally recognized again when past Board President, Lisa Klenke, received the National Council of State Boards of Nursing (NCSBN) Exceptional Leadership Award for 2011. This national recognition reflects her leadership and the Board's outstanding regulatory achievements and accountability to Ohio citizens. The Board was nationally recognized in 2009 for its regulatory excellence and public protection work upon receiving the NCSBN Regulatory Achievement Award.

The Board has a demonstrated track record of insuring an excellent level of public protection, funding initiatives to combat the nursing shortage, and regulating the largest number of licensed professionals of any agency in the State of Ohio. In order to ensure the highest quality of services and better achieve lean government, the Board has been an innovator fostering development of new approaches for patient safety, such as utilizing

Past President Lisa Klenke addresses the Board.

a just culture analysis in reviewing practice complaints, participating in the creation of a national patient safety database, and being selected as one of three states to pilot a national Transition to Practice study.

Ohio's participation with NCSBN has enabled the Board to work with other nursing regulatory boards across the country to enhance the effectiveness and expertise of the Board. Betsy Houchen, the Board's Executive Director, served four years on the NCSBN Board of Directors and was elected for another two-year term this summer. Lisa Emrich, the Board's Program Manager for Education and Practice, was elected to the NCSBN

Leadership Succession Committee. Board members and staff also continue to participate in national forums and meetings and represent Ohio on several important discipline and practice-oriented NCSBN committees, including the committee that issued national guidelines on alternative to discipline programs and authored a manual to support such programs.

The Board's innovative practices and commitment to operational efficiencies are ongoing in our efforts to achieve continual improvement on an annual basis. •

Bertha M. Lovelace

Be inspired. Be in demand. **Be the difference. Be a nurse.**

There has never been a better time to be a nurse. More than 2.8 million new and replacement nurses will be needed by 2020 to address the country's severe nursing shortage.* Launch your nursing career on the fast track with Chamberlain College of Nursing's 3-year Bachelor of Science in Nursing degree program.**

America needs nurses. Discover the nurse in you.

Another busy RN renewal

season began in March and continued through the end of the renewal period on August 31, 2011. We are pleased that 96% renewed on-line, as compared to 91% in the last RN renewal period. Thank you to everyone who used this faster and more cost effective method of renewal. Also, thank you to all who completed the nursing workforce survey.

The nursing workforce survey was developed by the National Council of State Boards of Nursing (NCSBN) in conjunction with the Board. The questions, taken from the Minimum Nurse Supply Dataset, are designed to pro-

The Board is aware of the importance of having not only an adequate number of nurses in the workforce, but also the importance of having a well-educated workforce. With that in mind, the Board asked the Board's Advisory Group on Nursing Education to examine various options for nurses' continued education to achieve a BSN degree.

vide a snapshot of the nursing workforce in Ohio. NCSBN and the Forum of State Nursing Workforce Centers are working together in a joint effort to collect nursing workforce supply data with the goal of creating a national picture of nursing workforce information for use in development of health care policy. Ohio's data will contribute to that national picture.

The Board is aware of the impor-

tance of having not only an adequate number of nurses in the workforce, but also the importance of having a well-educated workforce. With that in mind, the Board asked the Board's Advisory Group on Nursing Education to examine various options for nurses' continued education to achieve a BSN degree. The Advisory Group recommended, and the Board agreed, to endorse the recommendation from the Institute of Medicine (IOM)'s Future of Nursing Report that nurses' continued education to achieve a BSN be voluntary, and that education institutions advance higher levels of education for nurses. The IOM Report states:

"Recommendation 4: Increase the proportion of nurses with a baccalaureate degree to 80 percent by 2020. Academic nurse leaders across all schools of nursing should work together to increase the proportion of nurses with a baccalaureate degree from 50 to 80 percent by 2020. These leaders should partner with education accrediting bodies, private and public funders, and employers to ensure funding, monitor progress,

Betsy J. Houchen,
RN, MS, JD
Executive Director

and increase the diversity of students to create a workforce prepared to meet the demands of diverse populations across the lifespan."

The Board is represented on the newly formed Aging and Higher Education Advisory Committee convened by representatives of the Ohio Department of Aging and the Ohio Board of Regents to address how Ohio trains and supplies the needed workforce, among other issues. The Committee is beginning its work, and their discussions may include articulation, transfer agreements, and credit for life/work experience.

The Board strongly supports and encourages higher education levels for nurses, and has observed that nursing education programs continue to increase their capacity to educate nurses at the BSN level, and increase articulation of nurses' coursework between programs, to provide greater educational access to nurses seeking to continue their education. •

Registered Nurse Performance of Patient Health History and Physical Examination

At its July 2011 meeting, the Board of Nursing approved a new Interpretive Guideline (IG) that addresses the performance of a health history and physical examination by a registered nurse. The IG “Registered Nurse Performance of a Patient Health History and Physical Examination for Purposes of Providing Nursing Care” discusses the scope of practice for registered nurses that may include the performance of a health history and physical examination when the purpose of the history and physical examination is to provide nursing care. The IG was developed in response to repeated questions from licensees concerning their role in the performance and documentation of patient health histories and physical examinations.

All of the Board’s Interpretive Guidelines are available for review on the Board’s website under the “nursing practice” section. Interpretive Guidelines are not a regulation of the Board, and do not carry the force and effect of law. An Interpretive Guideline is adopted by the Board as a guideline to licensees who seek to engage in safe nursing practice. Licensees may also want to review the IG companion guide “Utilizing Interpretive Guidelines.” Interpretive Guidelines should be used within the context of the IG companion guide when determining the RN or LPN’s individual scope of practice and the activities that the RN or LPN may perform.

The new Interpretive Guideline is as follows:

“Guidelines for Registered Nurse Performance of a Patient Health History and Physical Examination for Purposes of Providing Nursing Care.”

The scope of practice for a registered nurse includes assessing health status for purposes of providing nursing care. The assessment may include the collection of a patient’s health history and physical examination when the purpose of the history and physical examination is to assess the health status of an individual for the purpose of providing nursing care (section 4723.01(B) ORC).

A. A registered nurse with the necessary knowledge, skills, and ability may collect information pertaining to a patient’s health history and perform a physical examination that includes but is not limited to the following:

- Interviewing the patient and others as applicable to obtain the patient’s health history;
- Performing a physical examination of the patient in a systematic manner;
- Directing an LPN as applicable to collect data in accordance with the LPN’s responsibilities contained in Rule 4723-4-08, OAC.
- Documenting the health history and the source of the information;
- Documenting the physical examination findings;
- Organizing and interpreting the health history and examination findings for purposes of providing nursing care;

- Establishing nursing diagnoses resulting from the findings;
- Executing a prepared nursing regimen and plan of care resulting from the established nursing diagnoses; and
- Providing health counseling and health teaching appropriate for the nursing diagnoses and examination findings.

B. When performing a history and physical examination a registered nurse should timely report to and consult with other members of the health care team, and make referrals as necessary (Rule 4723-4-03 (G), OAC).

C. A registered nurse, who is not an advanced practice nurse, in collecting a patient's history and performing a physical examination shall not form a medical diagnosis or develop a medical regimen as this is the practice of medicine and surgery and is prohibited (Section 4723.151, ORC).

Considerations in Performing a History and Physical Examination: (Rule 4723-4-03, OAC)

1. The registered nurse performing a history and physical examination should maintain documentation of his/her acquisition of education and demonstrated competency, and other documentation required to ensure that practice is in compliance with written employer/institutional policies and procedures.
2. The registered nurse's education/training and demonstrated competence should include, but is not limited to, the following:
 - a. Anatomy and physiology
 - b. Physical examination skills and techniques
 - c. Pharmacology
 - d. Interview techniques

The IG “Registered Nurse Performance of a Patient Health History and Physical Examination for Purposes of Providing Nursing Care” discusses the scope of practice for registered nurses that may include the performance of a health history and physical examination when the purpose of the history and physical examination is to provide nursing care. The IG was developed in response to repeated questions from licensees concerning their role in the performance and documentation of patient health histories and physical examinations.

Accountability and Responsibility of Registered Nurses:

Section 4723.01(B) ORC, defines the scope of practice for the registered nurse. Rule 4723-4-03, OAC, holds registered nurses responsible for maintaining and demonstrating current knowledge, skills, abilities,

and competence in rendering nursing care within their scope of practice.

The registered nurse must apply the Nurse Practice Act (Chapter 4723, ORC) and rules regulating the practice of nursing (Chapters 4723-1 to 4723-27, OAC) to the specific practice setting. Further,

the registered nurse must utilize good professional judgment in determining whether or not to engage in a given patient-care related activity, consistent with the law, rules, and guided by the Board’s Decision-Making Model, Publication OBN-103. It is critical to note that the law and rules require that the licensee provide nursing care only in circumstances that are consistent with their education, experience, knowledge, and demonstrated competency.

Licensees should review the following:

- Section 4723.01(B), ORC
- Rule 4723-4-03, OAC
- Rule 4723-4-06, OAC
- Rule 4723-4-07, OAC

A complete copy of the Nurse Practice Act and the rules adopted thereunder are available for review and download from the Board of Nursing website: www.nursing.ohio.gov in the Law and Rules section.

You accomplished one goal – to become a registered nurse. Now it's time to reach for your next – to earn your bachelor's degree!

Indiana Wesleyan University's Post-licensure program is designed for registered nurses who wish to pursue their Bachelor of Science in Nursing degree.

As nationally recognized leaders in adult education, we understand that to help you reach this goal, the program needs to fit into your busy schedule. With classes offered online and at convenient locations in Cincinnati, Dayton and our new Columbus Education Center in Hilliard, we're flexible — so you don't have to be.

We also understand that quality is important. Our cohort program incorporates guided independent study and practical, professional application, and our faculty are recognized leaders — many maintain current practices at the bedside, conduct research and regularly contribute to scholarly literature.

*Indiana Wesleyan University.
Change your life. Change the world.*

- Earn your degree in 18-20 months
- Attend onsite or online
- Experience individualized practicums with a preceptor in your area
- Books and materials are included in the cost of the program and delivered to your home
- Register once – with no waiting in line

FOLLOW-UP: Medication Administration in Private Schools

If a private school or school system is chartered by the State of Ohio Department of Education, the school or system is required according to its charter agreement with the State to comply with all of the minimum operating standards set forth in the rules adopted under Chapter 3313, ORC.

In the Spring 2011 edition of *Momentum*, the Board provided information related to administration of medication to students. Specifically, whether or not unlicensed individuals may administer medication to students in private schools. Ohio law authorizes unlicensed employees, if certain requirements are met, to administer medications in public schools, i.e., if designated by “the board of education of each city, local, exempted village [or] vocational school district.” Section 3313.713 (B), ORC. A school that is non-public/private is not generally subject to Chapter 3313 of the Revised Code, and thus, this legal authorization for medication administration would not apply to private schools.

However, to clarify, if a private school or school system is **chartered** by the State of Ohio Department of Education, the school or system is required according to its charter agreement with the State to comply with all of the minimum operating standards set forth in the rules adopted under Chapter 3313, ORC. See 3301-35-12, OAC. By

agreeing to comply with these rules, it is the position of the Ohio Department of Education’s legal counsel that Section 3313.713, ORC also applies to charter schools.

In order to determine if a private school is chartered by the State of Ohio, and thus, subject to the law regarding medication administration by unlicensed persons set forth in Section 3313.713, ORC, you may contact the Ohio Department of Education (ODE) at (877) 644-6338, or search the ODE website at: <http://education.ohio.gov>, for the current list of “Non-Chartered, Non-Tax Supported Schools By County.” If a school appears on the “NCNT” list, it is **not chartered**, and is **not** covered by the law authorizing unlicensed persons to administer medications in school settings.

As always, it is important to remember that Ohio law does not authorize unlicensed persons, without nursing delegation, to perform nursing services in school settings, whether public or private, other than the administration of prescribed medications in compliance with Section 3313.713, ORC. •

LICENSE/CERTIFICATE VERIFICATION

The Board discontinued issuing wallet cards in February 2009. You can verify your license/certificate status on the Board's website:

Click on the Ohio License Center "License and Certificate Verification Site" on the Board's website. Approved Browsers:

- Windows Users: Internet Explorer

- Apple OS X: Firefox

Enter **ONLY** your nursing license/certificate number or your name. Click on the "Search" button. Click on your name to reveal the details of your license/certificate. The verification may be printed for your personal files and/or your employer. •

NAME/ADDRESS CHANGES

How do I change my name with the Board?

You must submit a certified document of a name change (i.e. marriage certificate/abstract, divorce decree/dissolution, name change document) within thirty days of the change. Certified documents can be obtained from the court where the original record was filed. Photocopies or notarized copies are not acceptable for a name change. Submit your certified document with a "Name/Address Change Form" or with a brief letter which includes your Ohio license/certificate number, your previous name, your new name as you want it to appear on Board records, your

current address, county and telephone number. A Name/Address Change Form is available on the Board's website at www.nursing.ohio.gov at the "Change Your Name/Address" link. Any name change documents must be mailed to the Board. The Board will return your certified document. There is no fee for a name change.

“Ohio, you could
change your life,
in **one** week!”

Nancy Morgan RN, BSN, WCC, DWC

Become Wound Care Certified.

WCEI will teach you the skills you need to become Wound Care Certified in just a few days. Our professional educators are experts in wound care and deliver the curriculum in a way that is energizing and motivating. Not only will you get the clinical training you need to succeed, you will get career support and receive excellent networking opportunities. The National Certification Exam is administered by the National Alliance of Wound Care®—an NCCA accredited program. In some cases your tuition for WCEI program costs may be covered by your employer.

For complete course listings,

tifying drug-seeking behaviors. An OARRS Prescription History Report can assist in assuring that a patient is getting the appropriate drug therapy and is taking their medication as prescribed.

This Rule, similar to rules being considered by the State Medical Board and other boards that regulate prescribers, will establish standards and procedures for Advanced Practice Nurses with prescriptive authority to review OARRS prior to furnishing or prescribing “reported drugs,” i.e., drugs that are required to be reported to OARRS. These drugs include essentially all controlled substances (scheduled II, III, IV, and V drugs), in addition to drug products containing tramadol or carisprodol. The OARRS review will be triggered if any red flags are present, for example, the patient appears overly sedated, intoxicated or impaired during an office visit or exam.

Recently, Kentucky Governor Beshear announced that practitioners in Kentucky and Ohio will automatically be able to exchange prescription medication data with the launch of Kentucky’s “Prescription Monitoring Information Exchange” (PMIX). This multi-state cooperation should assist Ohio prescribers in combating the drug abuse epidemic in a cost-effective manner.

Go to the Ohio Board of Nursing’s website (www.nursing.ohio.gov) for a link to the proposed OARRS rule. The rule will most likely be effective February 1, 2012. In order to register for an OARRS account, you may call the State Board of Pharmacy for assistance at: 614-466-4143; or register for an account online at: <https://www.ohiopmp.gov/portal/Registration>. •

Cleveland Clinic

Every life deserves world class care.

We are proud to be an equal opportunity employer. Smoke-free/drug-free environment.

Did You *Really* Wash Your Hands?

As nurses, we *do* know the essentials of an effective infection control program (i.e. policies/procedures, surveillance/investigation, monitoring, prevention and education). However, it never hurts to remind you that the *single* most effective means for preventing healthcare acquired infections (HAIs and formerly called *nosocomial infection*) is proper hand hygiene.

Preventing HAIs is our professional responsibility. The Centers for Disease Control and Prevention estimates 88,000 Americans per year may die of HAIs.¹ HAIs not only have the personal toll of inflicting suffering and death but also have the very public cost to the United States of almost \$5 billion each year due to the extra days or weeks of hospitalization needed to treat the infection (McKibben, 2005). Patients in nursing homes and in-home care are also at risk for developing HAIs—particularly if they have invasive medical devices, such as urinary catheters or central venous catheters. Nearly 1 million infections occur annually in nursing homes.²

Would it surprise you to know more than 30 studies have shown the average rate of compliance with hand hygiene guidelines among health care workers is only 40 percent?³ A recent observational study of hand washing practices for a group of Australian doctors revealed they self-reported a 73 percent hand hygiene compliance rate. During that same observation period, the deputized nurse spies recorded the doctors' actual hand hygiene rate as 9 percent. That study demonstrated a huge discrepancy between what we believe we do versus what we actually do.⁴

Proper hand hygiene includes both washing with soap and water and using alcohol-based hand hygiene (ABHH) products.

- If hands are visibly soiled, wash with soap and water using friction for at least 15 seconds. Sing “*Happy Birthday*” twice.
- Wash hands with plain soap or alcohol-based product after touching blood, body fluids, and contaminated

items whether or not gloves are worn.

- Wash hands immediately after gloves are removed, between patient contacts, and when otherwise indicated.
- Wash hands as appropriate and necessary between tasks and procedures on the same patient to prevent cross-contamination of different body sites.
- Avoid unnecessary touching of surfaces near the patient to prevent contaminating clean hands and to

prevent transmission of pathogens from contaminated hands to surfaces.

ABHH products are acceptable over soap and water when hands are not visibly soiled. Alcohol-based products have the following benefits:

- They kill the germs better.
- They leave skin in better condition.
- They are quicker and easier to use, so people use them more.

While ABHH products are considered equal to soap and water that is only true when the product is used correctly. What is correct usage?

- Use only on dry hands.
- Use enough of the product so hands are dry again in 15 seconds, and rub hands together until they are completely dry.⁵

Gerberding suggests we adopt a paradigm shift in our thinking for HAIs from infections being inevitable with some being preventable to each infection being potentially preventable unless proven otherwise.⁶

The Christ College of Nursing and Health Sciences is an Affirmative Action Equal Opportunity Employer, AA/EOE/ADA.

BOARD DISCIPLINARY ACTIONS

- **Permanent Revocation** = Prohibited from ever practicing nursing or dialysis care, or working as a certified community health worker or certified medication aide.
- **Indefinite Suspension** = Indefinitely prohibited from practicing for a specified minimum period of time. The Board will reinstate only if all conditions for reinstatement, set at the time the action was taken, are met.
- **Automatic Suspension** = Suspension for a violation of a consent agreement or Board order or suspension required by law for commission of a specified felony.
- **Immediate Suspension** = Suspension required by law for a felony drug abuse offense.
- **Indefinite suspension with a stay** = On “probation.” May practice if the license status is active but will be monitored by the Board under conditions and restrictions.
- **Restrictions** = Limits such as prohibition from passing narcotics or working in certain areas of practice.
- **Reprimand** = Least amount of discipline. Acknowledgment that what the nurse, dialysis technician or community health worker did was wrong. Does not prohibit practice.
- **Voluntary surrender** = May not ever practice again. Permanent action following a formal agreement by the nurse, dialysis technician, medication aide or community health worker to give up the license or certificate.
- **Fines** = A fine of up to \$500 imposed for each violation.

Below are the Board’s actions taken during the last Board meetings. The actions are an accurate representation of information maintained by Ohio Board of Nursing at the time of posting. Because the name of a licensee may be the same as another, please do not assume from the name alone that a particular individual has had disciplinary action. Employers and potential employers should also verify the license status on the Board’s Web site at www.nursing.ohio.gov. If you have any questions regarding these disciplinary actions, please contact the Compliance Unit at 614-466-8500.

Who says Continuing Education can't be fun?

Join ThinkNurse and Poe Travel for our 7th Annual CE Cruise. Cruise the Caribbean on Carnival's Conquest while you earn your annual CE credits and write the trip off on your taxes! Prices for this cruise and conference are based on double occupancy (bring your spouse, significant other, or friend) and start at only \$855 per person (not including airfare to New Orleans) A \$250 non-refundable per-person deposit is required to secure your reservations. Please ask about our Cruise LayAway Plan!

There's no better way to conquer the High Seas than with the ship Carnival Conquest! Beautiful destination spots, award-winning stage shows, swanky clubs and lounges plus Spa Carnival, a friendly casino, delicious dining options and the Carnival Seaside Theatre. Make your reservations today!

For more information about the cruise and the curriculum, please log on to our Web site at ThinkNurse.com or call Teresa Grace at Poe Travel Toll-free at 800.727.1960.

Golden-Age Opportunity for Nurses

Take what you know and what you've done to generate income with your own business by helping seniors and their families.

A **Seniors Helping Seniors**® franchise helps seniors live independently in their own homes, providing non-medical services (light housekeeping, grocery shopping and companion care).

We are looking for a qualified individual to bring **SENIORS HELPING SENIORS**® in-home services to your community. If you are looking for **financial growth** and **personal satisfaction**, join the **Seniors Helping Seniors**® team.

Take the initiative! Learn more at:
