Ohio Nursing *Momentum* is the official journal of the Ohio Board of Nursing. Nursing *Momentum's* traditional journal & interactive digital companion serve over 280,000 nurses, administrators, faculty and nursing students, 4 times a year all across Ohio. *Momentum* is a timely, widely read and respected voice in Ohio nursing regulation.

Maryam Lyon, MSN, RN
President

I am very proud to have been elected President of the Ohio Board of Nursing and I look forward to serving in this important role. Congratulations to the other elected officers, Janet Arwood, LPN, Vice-President, and Sue Morano, RN, Board Supervising Member for Disciplinary Matters.

At the January Board meeting, the Board welcomed new Board member Janet Fuchs, RN, CNS, to the Board. She is a clinical nurse specialist who has been responsible for ambulatory nursing practice for the Cleveland Clinic Health System.

In addition to electing officers for 2015, the Board appointed Patricia Sharpnack, RN, as the Board Nursing Education Liaison. This Liaison works with Board staff in the review of pre-licensure nursing education programs. The Board also appointed Board Member Chairs for the Advisory Groups: Jane McFee, LPN, Advisory Group on Continuing Education; Maryam Lyon, RN, Advisory Group on Dialysis; and Patricia Sharpnack, RN, Advisory Group on Nursing Education. The Advisory Groups meet periodically throughout the year to provide recommendations to the Board on various programs and issues.

Last year the Board reported on its successful LeanOhio event that identified the “Future State” of licensing. One major change was requiring that all renewals be completed online, which will also be required for 2015. Another major change was implementation of a secure web-based, look-up

system to access passwords and user IDs online for renewal. This innovation enabled licensees to access the information 24/7 and dramatically reduced calls to the Board. For the 2015 renewal, the Board will mail postcard reminders about renewal, and licensees will access their passwords and user IDs online. Watch for the postcards in the spring of this year and renew early!

For APRNs, an important reminder: APRNs must renew their RN license, not just their certificate of authority (COA). APRNs cannot legally practice without renewing both their RN and COA. Also, APRNs renewing their certificate to prescribe (CTP) must renew not only their CTP, but also their RN and APRN license/certificate. In summary, if you renew a COA, you must also renew your RN license. If you renew your CTP, you must also renew your RN license and COA. **APRNs must remember to renew all applicable licenses/certificates, because the current state licensing system cannot monitor or alert you if you have or have not renewed all the required licenses/certificates.**

- To practice, APRNs must renew both their RN license and COA
- To prescribe, APRNs must renew three things: RN license, COA, and CTP

Please subscribe to eNews, Twitter and Facebook via the Board web site (www.nursing.ohio.gov) to keep informed and receive updates about renewal, regulatory requirements, and other Board news. •

Applicants must have an active RN license in Ohio.

Legislative initiatives of 2014 and Ohio Administrative Code rule changes continue to target prescribing of opioids, benzodiazepines and other drugs that can be dangerous when misused or abused. The Board established a link on the front page of its website, “Prescriptive Authority Resources” at www.nursing.ohio.gov/Practice.htm#CTP, to provide faster access to resources supporting prescriber awareness and education.

The Board wants to remind prescribers of the following:

- HB 341 imposes new legal requirements for CTP holders. CTP holders who hold appropriate DEA certification and prescribe opioid analgesics or benzodiazepines were required to be registered with OARRS not later than January 1, 2015. To register for OARRS, go to <http://www.ohiopmp.gov>.
- Beginning April 1, 2015, the prescriber, before initially prescribing or personally furnishing an opioid analgesic or a benzodiazepine, must request patient information from OARRS that covers at least the previous 12 months, and make periodic requests for patient information from OARRS if the course of treatment continues for more than 90 days. Exceptions to the requirement to check OARRS under these circumstances include drugs prescribed to hospice or cancer patients, drugs to be administered in hospitals

The Board encourages you to register immediately so you may practice in compliance with Rule 4723-9-12, OAC, and additional legal requirements that go into effect April 1, 2015.

or long-term facilities, drugs to treat acute pain from surgery or a delivery, and drug amounts for use in seven days or less. The law further requires the Nursing Board to verify that licensees prescribing in this manner are registered and using OARRS appropriately.

Violations of these legal requirements may subject licensees to discipline.

It is important that all CTP holders with authority to prescribe controlled substances register for OARRS. **The Board encourages you to register immediately** so you may practice in compliance with Rule 4723-9-12, OAC, and additional **legal requirements that go into effect April 1, 2015**. For more information about OARRS, go to <https://www.ohiopmp.gov/Portal/Brochure.pdf>.

The Board strongly encourages CTP holders to review legislation and administrative rules regularly to keep current with laws governing their practice. Licensees are reminded to refer to the Board web site at www.nursing.ohio.gov as another way to keep current with new and changing legal requirements. •

Betsy J. Houchen,
RN, MS, JD
Executive Director

UNIVERSITY OF AKRON

The School of Nursing, part of the new College of Health Professions, is a vibrant and diverse learning community at The University of Akron.

Associate Professor, Assistant Director Undergraduate Program, Nursing

This position works directly with the Director of the School of Nursing and has responsibility for undergraduate curriculum development, faculty hiring and assignments, faculty development, course management and scheduling, and program assessment and evaluation. The Assistant Director, Undergraduate Programs, coordinates undergraduate programming with the Assistant Director, Graduate Programs and Research in Nursing to ensure the smooth implementation of educational programming at all levels. This is a 12-month tenure track position with a mix of administrative, research, teaching and service. Minimum five years in the practice of nursing as a registered nurse, two of which have been as a faculty member in a registered nursing education program. Must be eligible for licensure as a registered nurse in Ohio with an earned PhD from an accredited program.

For complete details & to apply visit: <http://www.uakron.edu/jobs>. Job #8202.

Be prepared to attach a CV, cover letter of introduction & contact information for 3 current professional references to your application. Official transcripts will be required before an official hire. EEO/AA/Employer/Vets/Disability

Assistant Professor, Nursing

The School is seeking an Assistant Professor. The tenure track position requires a current RN license in Ohio, earned doctorate in Nursing (PhD preferred) and must be able to meet the requirements for graduate faculty status. In addition, this person will have certification as an adult or family nurse practitioner. Preference will be given for an individual with prior teaching experience. Primary responsibility will involve teaching in the doctoral programs in the School.

For complete details and to apply please visit: <http://www.uakron.edu/jobs>. Job#7773.

When submitting the online application (link listed above) please be prepared to attach a curriculum vitae, cover letter, and current references. EEO/AA/Employer/Vets/Disability.

Professor/School Director, Nursing

This position works directly with the Dean of the College and will serve as the academic leader of the School and hold administrative and teaching responsibilities. In addition, the School Director will oversee faculty, staff, and administration to ensure efficient and effective delivery of quality programs and practices to promote the School and interdisciplinary collaboration within the College of Health Professions.

In addition, this position will build on the *University of Akron's 2020 Vision* by augmenting student enrollment, enhancing student success, and positioning the School in the creation and application of interdisciplinary research that benefits local, national, and global communities. The School Director will commit to the advancement of evidence-based practice, community engagement, and service learning in the School of Nursing.

The position is open at the rank of full professor and eligible for tenure.

To be considered, the Candidate must have a Masters in Nursing and earned PhD or similar terminal degree in Nursing or related field, be eligible for licensure as a registered nurse in the State of Ohio, possess a minimum of 5 years of administrative leadership experience in higher education and have successful experience in obtaining competitive, national research grants. Evidence of collaborative leadership and management style that effectively engages the talents, strengths, and experiences of faculty and staff, experience working in a diverse community and experience with departmental budget management are also required. EEO/AA/Employer/Vets/Disability.

For complete details & to apply visit: <http://www.uakron.edu/jobs>. Job #8203.

CTP EXTERNSHIP

A Certified Nurse Practitioner, Certified Nurse Midwife, and Clinical Nurse Specialist, who completed a required pharmacology course, usually within their formal graduate program, may apply for a Certificate to Prescribe Externship (CTP-E). Once the Board issues the CTP-E, the CTP-E holder is authorized to prescribe under the supervision of one or more physicians. The supervising physician provides direct and indirect supervision of the CTP-E holder's prescribing practices. The supervising physician must attest to the CTP-E holder's completion of the externship hours before the nurse may apply for a Certificate to Prescribe (CTP). The CTP does not require direct and indirect supervision, though periodic retrospective reviews of the CTP holder's prescribing practices by the collaborating physician are required.

The regulations pertaining to the CTP-E are located in Chapter 4723-9, Ohio Administrative Code (OAC). Rule 4723-9-01(G), OAC, defines the "externship" as:

The practice relationship, consistent with the standard care arrangement between a nurse who holds a current valid externship certificate to prescribe and one or more licensed physicians during which time the nurse's prescribing activities are reviewed and evaluated by a supervising professional for the purpose of ongoing improvement of the nurse's competence, knowledge, and skill in pharmacokinetic principles and the application of these principles to the nurse's area of practice.

During the externship, a CTP-E holder's prescribing practices must be supervised directly for a minimum of 500 hours

and indirectly for 1000 hours. Of the 500 direct supervision hours, up to 200 hours may be supervised by another APRN who has a CTP and who collaborates with the CTP-E's supervising physician. Therefore, the physician must provide the 1000 hours of indirect supervision and at least 300 hours, or up to 500 hours as applicable, of direct supervision. To achieve the 500 hours of direct supervision the supervising physician or CTP holder must be available on site where the CTP-E holder is engaged in his/her prescribing practices. Indirect supervision is achieved through the supervising physician's timely review of both the prescriptions written by the CTP-E holder and the CTP-E holder's prescribing practices (Rule 4723-9-01(M)(2), OAC).

Questions and Answers:

Question: Does the collaborating physician need to co-sign prescriptions during the externship?

ANSWER: No. The law and rules do not require that the supervising professional co-sign prescriptions written by a CTP-E holder.

Question: Is there a special Formulary for CTP-E holders or restrictions on the types of drugs a CTP holder may prescribe?

ANSWER: No. There is one Formulary to be used by both CTP and CTP-E holders. Any restrictions or specialty qualifiers addressed in the Formulary would apply to holders of both CTPs and CTP-Es. A CTP-E holder may prescribe any drug listed in the Formulary as "CTP holder may

prescribe” or “in accordance with the Formulary” consistent with the CTP-E holder’s specialty scope of practice and the prescribing parameters addressed in the nurse’s standard care arrangement.

Question: Does the CTP-E holder need to be engaging in prescribing practices for the hours to count toward completion of the CTP externship?

ANSWER: Yes. The CTP-E holder’s prescribing practices are supervised and evaluated during the externship. If a CTP-E holder does not have the opportunity to prescribe or engage in other prescribing practices, e.g., discontinuing medications, evaluating medication regimens, etc., there is nothing for the supervising physician to attest to having supervised during the externship. Also, a CTP-E holder’s observation of another health care provider in the provider’s prescribing practice does not qualify as CTP-E holder prescribing practices and would not count toward the supervised practice requirement.

Question: What does it mean for the supervising professional to be “available onsite” during the direct supervision hours?

ANSWER: The administrative rules do not further define the term “onsite.” The plain meaning of the word should be used. The supervising professional should be positioned in a location that allows for the CTP-E holder’s prescribing practices to be appropriately and directly supervised. In addition, Rule 4723-8-04(C)(12)(a), OAC, requires the standard care arrangement to include provisions ensuring

Once the Board issues the CTP-E, the CTP-E holder is authorized to prescribe under the supervision of one or more physicians. The supervising physician provides direct and indirect supervision of the CTP-E holder's prescribing practices.

timely direct, personal evaluation of the patient by the collaborating physician or the physician's designee when indicated.

Question: How often does the supervising physician need to review prescriptions written by a CTP-E holder during the indirect supervision hours?

ANSWER: The rules do not address specific requirements for how often the supervising physician should review the CTP-E holders prescribing practices when indirectly supervising the CTP-E holder. Rule 4723-9-04(E), OAC, requires the standard care arrangement entered into between the collaborating physician and the nurse to specify the frequency of the review needed for appropriate oversight of the nurse's prescribing practices.

The administrative rules pertaining to the CTP externship are available for review on the Board's website: www.nursing.ohio.gov and selecting the link for "Law and Rules." •

Kim's shocking transformation. She became a champion Athlete.

Kim weight has yo-yoed on and off for many years. At her highest weight she was over 90 pounds overweight! Take a look at her amazing fit toned and chiseled body. No drugs, No Supplements or surgery was required to achieve Kim's results. She became a champion athlete setting a state record in swimming in December 2014.

Heather – How I finally got a flat stomach.

Heather - Licensed Practical Nurse - I have been on the bulkier side of the scale for a long time. Despite my vigorous almost to the point of being frantic workouts suggested by my previous personal trainers, I had never gotten even close to the results I sought. I even tried a popular Weight Loss Program but ended up injuring myself due to the ridiculous strenuous workouts suggested by them. I needed a personalized program using HARD SCIENCE, not just another gimmick.

HOW THEY DID IT

Armageddon Weight Loss was developed by 22 medical doctors, scientists, fitness experts and champion athletes. An impressive 50% of their clients work in the medical field including numerous medical doctors and physical therapists; plus, tons of nurses and nurse practitioners really love their program. Armageddon provides clients with truly personalized programs consisting of strength training, nutrition and cardio; riveted in hard sciences such as endocrinology, neuroscience, physics of weight loss, biochemistry, and tailored to fit busy lifestyles.

STORY UPDATES

Since our last story posted in Momentum Magazine back in the fall, numerous nurses have taken the Armageddon Weight Loss challenge and are finally learning how to scientifically lose weight and how to how to keep it off. Carlos, who lost 238 pounds is getting ready to compete in the world championships for rowing bringing him one step closer to competing in the Olympics in Rio Brazil.

About Armageddon Weight Loss

COST: \$159.99 **DURATION:** 16 weeks • Visit ArmageddonWorld.com – Call 774-240-5287 • Available in every US state

I WAS AN OVERWEIGHT OUT OF SHAPE CARDIOVASCULAR SURGEON

Dr. Ammar Jarrous, MD – Cardiovascular Surgeon – Texas

In my opinion, the biggest problem is the multibillion dollar weight loss industry. There are many programs including videos, supplements, and various programs that offer a quick fix for those suffering from unhealthy lifestyles. These programs are often unsafe as they do not take into account the health history or ability of the individual. They often offer a short term solution that fails the individual for the long term. This leads to frustration, continued poor health, and empty pockets!

As a cardiovascular surgeon with 15 years of experience in dealing with cardiovascular disease, obesity was a major contributor to cardiovascular disease. Obese patients have a higher risk of complications and death post cardiovascular procedures.

My wife who is a Nurse Practitioner introduced me to Armageddon Weight Loss and I was amazed by the results I achieved. Armageddon Weight Loss offers a multidimensional and holistic approach to weight loss that is based on real scientific principles. Armageddon focuses on the fundamentals of

a healthy lifestyle, how to eat for long term results, and how to avoid poor eating habits. In addition, Armageddon weight loss offers a structured exercise program that is tailored for each individual based on their weight, fitness level, and goals.

Unfortunately, there is not an easy cure for obesity. Most advertised weight loss programs provide short term results or no results at all. Obesity is not just a physical problem, it is a cultural and psychological problem. Without scientific-based education about healthy diet and life style modification, obesity will continue to be epidemic.

THE LAWMAKING PROCESS IN THE STATE OF OHIO

“The lawmaking process in Ohio, as in most other states, involves several steps, including introduction, committee action, floor action, defeat or enactment, approval or disapproval by the Governor, and possible legislative reaction to the Governor’s action. Since Ohio’s General Assembly is a bicameral, or two-house legislature, several steps must occur in each house consecutively; that is, after the first house completes action on a bill, the bill is sent to the second house where the process is repeated. Enactment occurs after both houses have passed and agreed on identical bills” (*A Guidebook for Ohio Legislators – Thirteenth Edition 2013-2014*, Ohio Legislative Service Commission). Enactment of a bill into law also requires review by the Governor that commonly results in the bill’s signing and becoming law 90 days later, unless an emergency clause is added with a more immediate effective date. If the Governor vetoes a bill, the legislature may override the veto with a greater number of votes than required for enactment.

This process is repeated every two years, a period that encompasses a legislative session of the Ohio General Assembly. The 131st General Assembly began on January 1, 2015 and will conclude at the end of calendar year 2016.

Within the legislative process, the House and Senate have rules that allow for consideration and comment on proposed laws during session, including public hearings. The Board of Nursing monitors legislation and may choose to take a position of opposition or support of any proposed law based on an analysis of

its impact on “the effective regulation of nursing care,” consistent with the Board’s mission. The Board may also comment on a legislative proposal as an interested party. Interested party testimony usually consists of educating legislators and parties advocating for a proposed law concerning the impact the law may have on the protection of Ohio’s citizens and Board operations. The Board provides comment and educates in a number of ways, including discussing issues with legislators, professional licensing boards, professional associations and other interested parties as well as testifying in person or in writing at public hearings before House and Senate committees.

The Board’s consideration of legislation is a public process that does not take place in a vacuum. The political process by its very nature requires active par-

ticipation. Throughout the year, the Board informs the public, licensees, certificate holders, and other interested parties about the Nurse Practice Act and administrative rules, proposed statutory and administrative rule changes, and other issues relating to regulation through a variety of means in addition to this newsletter. The Board uses *Momentum*, its web site, eNews, a web based listserv, and social media to deliver Board information and also designates specific pages on the web site to provide quick links to locate information. The Board primarily reviews legislation at its regularly scheduled public Board meetings.

The Board’s annual report has a section listing various laws that the Board has advocated on over the course of the year. The annual reports may be found on the Board’s website at <http://www.nursing.ohio.gov/Publications.htm>. •

OHIO DEPARTMENT OF HEALTH: Do Not Resuscitate Comfort Care

In its Summer 2014 issue of *Momentum*, the Board of Nursing (Board) published an article discussing the requirements for nurses to initiate cardiopulmonary resuscitation (CPR) and to take other actions necessary to intervene or rescue a patient unless there is a “do not resuscitate” (DNR) order. A paramount aspect of nursing practice is a nurse’s awareness and understanding of orders specific to a patient’s advanced directives and code status that address what actions should or should not be taken by the nurse in the event of the patient’s cardiopulmonary arrest, and other aspects of the patient’s end of life nursing care. The law and rules specific to a patient’s advanced directives and an individual’s declaration of his/her code status and how it is communicated to nurses through DNR orders are enforced by the Ohio Department of Health (ODH). Nurses should understand the terms specific to ODH law and rules that impact

patients and the nurse’s implementation of a health care provider’s valid authorized DNR orders for the patient.

ODH Rule 3701-62-01, OAC, contains definitions specific to DNR Protocol. Below are selected terms and their definitions:

Rule 3701-62-01 (E) “CPR” means cardiopulmonary resuscitation or a component of cardiopulmonary resuscitation, but it does not include clearing a person’s airway for a purpose other than as a component of CPR. “Component of CPR” means any of the following:

1. Administration of chest compressions;
2. Insertion of an artificial airway;
3. Administration of resuscitation drugs;
4. Defibrillation or cardioversion;
5. Provision of respiratory assistance;
6. Initiation of a resuscitative intravenous line; and
7. Initiation of cardiac monitoring.

Rule 3701-62-01(I) “Do-not-resuscitate order” or “DNR order” means a directive issued by a physician, or by a CNP or CNS as provided in Rule 3701-62-02, that identifies a person and specifies that CPR should not be administered to the person so identified. The do-not-resuscitation order shall be implemented in accordance with the do-not-resuscitate protocol.

Rule 3701-62-01 (J) “Do-not-resuscitate protocol” or “DNR protocol” means the standardized method of procedure for the withholding of CPR by physicians, CNPs or CNSs, provided in Rule 3701-62-02, and emergency medical service personnel and health care facilities, as adopted ODH rules pursuant to Section 2133.25, ORC. The do-not-resuscitate protocol is specified in an Appendix to Rule 3701-62-05. Treatment other than resuscitative, shall continue to be provided or modified as the individual’s con-

dition warrants, in keeping with the individuals treatment plan goals. Rule 3701-62-05(B) states that “under the DNR protocol, a person can be a “DNR Comfort Care” patient or a “DNR Comfort Care- Arrest” patient. For a DNR Comfort Care patient, the DNR protocol is activated when a DNR order is issued or when a declaration that includes a directive that the declarant not receive CPR becomes effective under Section 2133.03 of the Revised Code. For a DNR Comfort Care-Arrest patient, the DNR protocol is activated when the patient experiences cardiac or respiratory arrest.”

The ODH regulations pertaining to DNR orders and a Frequently Asked Questions document are available for review on the ODH website: www.odh.ohio.gov under the Do Not Resuscitate Comfort Care link: <http://www.odh.ohio.gov/odhprograms/dspc/dnr/dnr1.aspx>

A nurse is required by Chapter 4723-4, OAC, to maintain competence and accountability in all areas of practice in which the nurse is engaged, and to timely implement orders unless the nurse believes or has reason to believe the orders are inaccurate, not properly authorized, not current or valid, are harmful or potentially harmful to a patient, or are contraindicated by other documented information. Should any of these contraindications be identified, the nurse is required to seek clarification with the appropriate licensed health care provider. The Ohio Nurse Practice Act and the Administrative Rules adopted thereunder are available for review in their entirety on the Board of Nursing website: www.nursing.ohio.gov under the “Law and Rules” link. •

EBOLA

Recent concerns and efforts to identify and isolate any person at high risk of suspected Ebola virus have raised questions from licensed nurses and administrators of various types of healthcare facilities. The Board refers individuals to the guidelines and protocols approved and published by the Ohio Department of Health (ODH) and the Centers for Disease Control (CDC) for the care and treatment of individuals diagnosed with Ebola, and those who are identified at high risk of suspected Ebola.

A licensed nurse should adhere to the ODH/CDC guidelines during any direct contact with persons exhibiting Ebola symptoms to ensure public safety. The degree of initial direct contact by the nurse with the individual should be based upon the individual's presenting symptoms, the facility's capabilities or limitations to continue its evaluation of the individual, and the availability of appropriate levels of personal protective equipment necessary to adhere to the ODH/CDC guidelines.

The ODH/CDC published Ebola protocols and information are located at the following websites:

- Ohio Department of Health: <http://www.odh.ohio.gov/en/odhprograms/dis/orbitdis/ebola/Ebola.aspx>
- Centers for Disease Control and Prevention: <http://www.cdc.gov/vhf/ebola/index.html> •

EXCELLENCE IN NURSING EDUCATION

MALONE UNIVERSITY IS KNOWN FOR ITS HOLISTIC APPROACH TO EDUCATING NURSES. With a Christian world view at the center of their education, Malone nursing graduates care for their patients beyond diagnosis and treatment. It's one of the reasons Malone graduates are in demand in the nursing field.

RN to BSN PROGRAM

- Registered nurses can earn a BSN in 14 months through our hybrid program with classes offered one night a week or online.

MSN PROGRAM

- Earn a Master of Science in Nursing through our hybrid program with classes both one night a week and online.
- Develop increased autonomy in your nursing practice while improving quality outcomes for patients and families.

*Malone nursing graduates are in demand.
Find out why by visiting www.malone.edu/nursing.*

*Sand between the toes,
beats snow in your
boots any day.*

Live your life well.

Name/Address Changes

How do I change my name with the Board?

You must submit a certified court document of a name change (i.e. marriage certificate/abstract, divorce decree/dissolution, name change document) **within thirty days of the change**. Certified documents can be obtained from the court where the original record was filed. Photocopies or notarized copies are **not acceptable** for a name change. Submit your certified document with a “Name/Address Change Form” or with a brief letter which includes your Ohio license/certificate number, your previous name, your new name as you want it to appear on Board records, your current mailing address, county and telephone number. A Name/Address Change Form is available on the Board’s website at www.nursing.ohio.gov at the “Change Your Name/Address” link. Any name change documents must be mailed to the Board. The Board will return your certified document. There is no fee for a name change.

How do I change my address with the Board?

Address changes must be submitted in writing **within thirty days of the change**. Submit your address change with a “Name/Address Change Form” or with a brief letter, which includes your name, Ohio license/certificate number, mailing address, county and telephone number. A Name/Address Change Form is available on the Board’s website at www.nursing.ohio.gov at the “Change Your Name/Address” link. If you wish to verify that your address has been changed, call the Board at (614) 466-3947 for verbal verification. There is no fee for an address change.

Please submit to the attention of the appropriate department:

Mail: Ohio Board of Nursing

or dialysis@nursing.ohio.gov

Community Health Worker – Attention: CHW
or chw@nursing.ohio.gov

Medication Aide – Attention: MA-C
or medicationaides@nursing.ohio.gov •

Advanced Practice Registered Nurse National Recertification

If you are an advanced practice registered nurse,* your certificate of authority (COA) is current and valid only if you meet all requirements of the Board, which includes maintaining certification by the applicable national certifying organization (please refer to the Board’s website at www.nursing.ohio.gov for a list of Board approved national organizations). The Board requires primary source verification for advanced practice registered nurse national certification and recertification. You must request that your national certifying organization notify the Board directly of national recertification within thirty days of your recertification. The Board will not accept documentation from a COA holder.

**An exception to this requirement applies to CNSs certified by the Board on or before December 31, 2000.* •

Ohio Automated RX Reporting System (OARRS)

APRNs are reminded that Board Rule 4723-9-12, Ohio Administrative Code, sets forth certain situations which require review of OARRS prior to prescribing or personally furnishing a controlled substance to a patient. Note that in Ohio, effective September 1, 2014, tramadol is classified as a schedule IV controlled substance, and effective October 6, 2014, all hydrocodone products are classified as schedule II controlled substances. For information regarding OARRS, access the following link: <https://www.ohiopmp.gov/portal/Brochure.pdf>.

HB 341 imposes new legal requirements for CTP holders. CTP holders who hold appropriate DEA certification and prescribe opioid analgesics or benzodiazepines were required to be registered with OARRS not later than January 1, 2015. To register for OARRS, go to <http://www.ohiopmp.gov>.

Beginning April 1, 2015, the prescriber, before initially prescribing or personally furnishing an opioid analgesic or a benzodiazepine, must request patient information from OARRS that covers at least the previous 12 months, and make periodic requests for patient information from OARRS if the course of treatment continues for more than 90 days. Exceptions to the requirement to check OARRS under these circumstances include drugs prescribed to hospice or cancer patients, drugs to be administered in hospitals or long-term facilities, drugs to treat acute pain from surgery or a delivery, and drug amounts for use in seven days or less. The law further requires the Nursing Board to verify that licensees prescribing in this manner are registered and using OARRS appropriately. Violations of these legal requirements may subject licensees to discipline. For information about OARRS, go to <https://www.ohiopmp.gov/Portal/Brochure.pdf>. •

Reactivation and Reinstatement of a Nursing License

An inactive or lapsed license/certificate may be reactivated/reinstated at anytime by completing a reactivation/reinstatement application. This includes completing the required paperwork, paying a fee (if applicable), and providing proof of continuing education contact hours. In addition, if a license has been inactive or lapsed for five or more years from the date of application for reactivation/reinstatement, the applicant must complete a civilian (BCI) and federal (FBI) criminal records check. Contact the Renewal Unit at renewal@nursing.ohio.gov to request a reactivation/reinstatement application. •

Military

The Board of Nursing has established a dedicated page on the Board web site for military personnel and spouses. To access the page, click on the “Military and Veterans” link listed on the left side of the home page. The page provides current military personnel and veterans with information about licensure and renewal processes, continuing education, FAQs, and resources. All licensure and certification applications have been revised, so that military personnel, veterans and/or their spouses can indicate their military status on the application to enable Board staff to prioritize the application upon receipt. •

2015 RN and Advanced Practice Registered Nurse (APRN) Renewal

If you hold an active RN license, advanced practice certificate of authority (COA), or certificate to prescribe (CTP) in Ohio, your license/certificate is current through August 31, 2015. All

nurses will be required to renew their license/certificate online. By utilizing the online renewal process, you may be able to verify the renewal of your license/certificate through the Board’s web-site at www.nursing.ohio.gov in as little as three business days. When renewing online you can pay the required application fee using Master Card or VISA credit cards, or debit cards with a MC or VISA logo.

All RNs who are eligible to renew their license/certificate this year, will be sent a renewal notice in the mail in the Spring of 2015. The notice will be sent to the address of record with the Board. APRNs will be mailed one notice for their RN license and their COA, and an additional notice, if applicable, for a CTP. It is extremely important to notify the Board of a name and/or address change immediately. An incorrect name and/or address may delay the renewal of your license/certificate. Nurses will access their User ID and Password for online renewal through the Board web site at www.nursing.ohio.gov.

APRNs will be required to renew their RN, each COA and CTP, if applicable, separately within the system. Don’t forget to log back into the system if you have an RN license and multiple certificates to renew this year!

It is strongly recommended that you renew your license/certificate as soon as you receive your renewal notice. Incomplete applications may result in late or lapsed processing fee charges, and delay the renewal of your license/certificate. Fees for renewal are as follows:

- Before July 1, 2015
 - registered nurse – \$65
 - advanced practice registered nurse - each COA – \$85
- July 1, 2015 through August 31, 2015 (includes late processing fee)
 - registered nurse – \$115
 - advanced practice registered nurse - each COA – \$135
- Certificate to prescribe – \$50
- After August 31, 2015 – you must request a reinstatement packet

The Board audits nurses each year to determine compliance with continuing education requirements. If you were notified of an audit of your continuing education for the period of September 1, 2011 through August 31, 2013 and have not submitted the information required by the Board, you will not receive your renewal notice for 2015-2017 until you complete the audit requirements.

Board staff are available to assist you in taking the necessary steps to renew your license/certificate. If you have questions about the renewal process, please contact the Board by e-mail at renewal@nursing.ohio.gov, or if you are an APRN, please contact the Board by e-mail at aprn@nursing.ohio.gov. •

ADVISORY GROUPS AND COMMITTEES

All meetings of the advisory groups begin at 10:00 a.m. (unless otherwise noted) and are held in the Board office. If you wish to attend one of these meetings, please contact the Board office at 614-466-6940 to determine any change in the location, date or times.

REGISTERED NURSES OPENINGS

Operating Room • ICU • Family Birth Center

\$5,000 Sign On Bonus

Mary Rutan Hospital

Due to expanded services, we have immediate openings for RN's in the Operating Room, ICU, and Family Birth Center. Candidates must have prior experience. Candidates must have BCLS, ACLS, and PALS. Must be willing to work every other weekend and holiday. Must demonstrate flexibility to adjust schedule based on unit needs. Must be willing to float to other areas and/or accept low census. Must demonstrate excellent assessment skills, leadership qualities and communication skills to interact with patients, families and physicians in high stress situations. Must be willing to represent unit on committees and demonstrate a team spirit. Must be self-motivated, adept, and competent at working independently.

Mary Rutan Hospital has a long history of serving the community's health care needs. Located in Bellefontaine, Ohio, MRH is a 100-bed facility and Logan County's largest and most comprehensive health care system, employing nearly 700. Recognized as a national leader in clinical excellence as well as an institution with outstanding patient satisfaction, Mary Rutan Hospital recognizes this tradition of excellence can only be fostered by a strong team environment where co-workers are encouraged, recognized and supported. To learn more about Mary Rutan Hospital visit maryrutanhospital.org.

Bellefontaine is located in Logan County which is centrally positioned less than an hour from Columbus, Dayton and Findlay. Its' rolling countryside, beautiful waterways and year-round activities make the community an enticing spot for relocation. To learn more about Logan County visit logancountyohio.com.

Mary Rutan Hospital offers an attractive salary and benefits packages. The Personal Touch motto is not only incorporated with Mary Rutan Hospital's patients, but also with their employees. Sign on bonuses are being offered for candidates that are hired for these positions with a two year commitment. We offer an exceptional salary and benefits program along with opportunities for personal and professional growth. **To learn more about our specific positions, please view our website at maryrutan.org and see the Employment Opportunities tab to apply online. You can also contact the Human Resources Department at 937-599-7009 or HRD@maryrutan.org**

BOARD DISCIPLINARY ACTIONS

- **Permanent Revocation** = Prohibited from ever practicing nursing or dialysis care, or working as a certified community health worker or certified medication aide.
- **Indefinite Suspension** = Indefinitely prohibited from practicing for a specified minimum period of time. The Board will reinstate only if all conditions for reinstatement, set at the time the action was taken, are met.
- **Automatic Suspension** = Suspension for a violation of a consent agreement or Board order or suspension required by law for commission of a specified felony.
- **Immediate Suspension** = Suspension required by law for a felony drug abuse offense.
- **Indefinite suspension with a stay** = On "probation." May practice if the license status is active but will be monitored by the Board under conditions and restrictions.
- **Restrictions** = Limits such as prohibition from passing narcotics or working in certain areas of practice.
- **Reprimand** = Least amount of discipline. Acknowledgment that what the nurse, dialysis technician or community health worker did was wrong. Does not prohibit practice.
- **Voluntary surrender** = May not ever practice again. Permanent action following a formal agreement by the nurse, dialysis technician, medication aide or community health worker to give up the license or certificate.
- **Fines** = A fine of up to \$500 imposed for each violation.

Below are the Board's actions taken during the last Board meeting. The actions are an accurate representation of information maintained by Ohio Board of Nursing at the time of posting. Because the name of a licensee may be the same as another, please do not assume from the name alone that a particular individual has had disciplinary action. Employers and potential employers should also verify the license status on the Board's Web site at www.nursing.ohio.gov. If you have any questions regarding these disciplinary actions, please contact the Compliance Unit at 614-466-8500.

Elder & Good, PLLC

NURSE LICENSE DEFENSE

Put our experience to work for you

We represent nurses in OBN investigations. **The most critical time to seek help is when a nurse receives a letter, alleging a potential violation, which begins an investigation.** Proactive and effective representation from the beginning of an investigation by attorneys with experience can make the difference in avoiding discipline or litigation. We have that experience. Call for a free consultation.

LOWER LIGHTS
CHRISTIAN HEALTH CENTER

Lower Lights Christian Health Center has an immediate opening for a Nurse Practitioner with a passion for underserved patients. LLCHC is a growing Community Health Center with 5 locations throughout Central Ohio. LLCHC is a level three PCMH center utilizing an integrated model of care with onsite behavioral health and case management services. LLCHC is a qualified National Health Service Corp site for loan repayment assistance.

For more information, call Steve Myers, CPO at 614-274-1455 ext 350 or email your CV to careers@llchc.org Also find us on the web and Facebook at www.llchc.org

In just six years StuNurse has become a welcomed partner as students and educators make choices that will define their futures. Our goal is to offer information designed to fit the needs of a diverse and ever growing student population. From first semester students to PhD graduates, we hope to introduce more nursing possibilities to more students in variety of places, formats, on campus & online across the nation.

Your power of choice defines limitless educational experiences where exceptional students discover a career that forever changes their lives as well as those of others at home and around the world.

StuNurse magazine is distributed to nursing students across the campus of every accredited nursing school in the nation — over 2,300 schools of nursing.

Reach Recruit Retain

The most respected healthcare journal in Ohio. Read by over 250,000 nurses, students and faculty each quarter.

Reach over 200,000 nurses in Ohio for as little as \$325.

Enhance the *care*
that you provide.

Online. Accredited. Affordable.

Earn a Psychiatric-Mental Health Nurse Practitioner Post-Master's Certificate

Who is this program designed for?

This post-master's certificate program is designed for the primary and acute care nurse practitioner/clinical nurse specialist who is looking to effectively care for patients with complex psychiatric and mental health needs. The program prepares graduates with advanced psychiatric skills, positioning them to do therapy and to prescribe and manage psychiatric medication for individuals of all ages with mental health conditions.

How is the program structured?

The post-master's certificate is designed to augment a master's degree with an additional nursing specialty area. Coursework is completed online with a two-day, on-campus component. In addition, students complete three

internships after the first semester. The program can be completed in four semesters.

Students must possess an MSN degree from a regionally and nursing accredited program. There is an option to apply previously taken courses to the certificate curriculum.

Admission Guidelines

Before applying, students should have taken courses and be proficient in concepts relating to advanced physiology, health assessment and pharmacology. It is also recommended that students have received a grade of a B or higher in courses that deliver content relating to health promotion/maintenance, differential diagnosis and disease management practices.

Online Information Session:

April 28, 2015, 6-7 p.m.

Registration:
